CRUSOE × ARAICO · PARAGUAY

280 MW

Long-term option next to the Itaipú dam substation

The first phase is due online in mid-2027, with a path to 106 MW of IT capacity. It is Crusoe's first AI cloud site in Latin America.

COREWEAVE × ATNORTH · COPENHAGEN

22.5 MW

IT capacity at DEN01, live in Q4 2026

NVIDIA Blackwell systems. Surplus heat goes to Copenhagen's district heating network.

CoreWeave now counts 9 European sites in 5 countries.

ARC CLOUD × COMPAL · MOU

100 MW

Upper end of a US roadmap the two will explore

An MOU signed at the OCP Global Summit. No financial terms, timeline or committed capacity were disclosed.
